

Abdellah El Kacem

Front-End Developer | UX/UI Designer

abdellah.elkacem@gmail.com | +212 601 141 653 | kacimo.me

Professional Summary

Front-End Developer and UX/UI Designer combining user-centered design with responsive web development. Experienced in translating Figma designs into interactive interfaces using React, Next.js, TypeScript, and Tailwind CSS. Currently studying at 1337 Coding School (42 Network), with a background in graphic design and hands-on full-stack web projects.

Experience

AURA PRESTIGE TECH

Jun 2025 – Dec 2025

Front-End Developer & UX/UI Designer

- Designed and developed responsive web interfaces using React, Next.js, and Tailwind CSS.
- Created user-centered layouts and interactions in Figma; collaborated with the team to maintain consistency between design and implementation.

JADIDA PRINT's Company

2017 – 2022

Graphic Designer

- Created brochures, banners, and branding materials for print and digital use; worked directly with clients to deliver creative solutions on time.

Freelance

2014 – Present

Graphic Designer & UX/UI Designer

- Deliver branding and digital visuals tailored to client needs across industries.
- Expanded into UX/UI design in 2024, creating user-centered website and app interfaces.

Selected Projects

HYPERTUBE – Streaming Platform

Next.js, Tailwind CSS, TypeScript, Figma

- Led UX/UI design and front-end development for a film and series streaming platform.
- Translated high-fidelity Figma designs into a responsive, performant interface with modern animations, intuitive navigation, and smooth content discovery.

MATCHA – Dating Web Platform

Figma, Next.js, React, TypeScript, WebSockets

- Designed the complete UX/UI and developed a responsive full-stack dating application.
- Implemented user discovery, geolocation-based matchmaking, real-time messaging, notifications, and an automated popularity scoring system ("fame rating").

FT_TRANSCENDENCE – Multiplayer Web Application

React, TypeScript, PostgreSQL, WebSockets

- Designed and developed a full-stack application featuring a real-time multiplayer Pong game.
- Implemented user authentication, chat, matchmaking, and leaderboards.

Education

1337 Coding School (UM6P), Khouribga

2022 – Present

Project-based study in programming, algorithms, and web development through teamwork and peer-to-peer learning.

Baccalaureate in Physical Sciences, El Jadida

2015
